Tracy and Alex,

Wanted to let you know that today's meeting may be delayed. EPA folks are on an All Hands meeting regarding reopening our offices and it's running long!

Alex and Tracy,

I just learned that Jen Opilia has a conflict at that time and they are now looking at Monday, June 1, at 11:15-noon. Does that work for you?

Thanks and sorry for the back and forth!

Corbin

Thanks, Web.

Tracy and Alex – this meeting is tentatively planned for June 2nd at 3pm. Does that work for both of you?
If not, we'll find another time.

Hi Corbin,

I would have to defer to Jen or Tracie from the Hazardous Materials and Waste Management Division at CDPHE regarding who should be there from their teams.

I would recommend reaching out to Web Brown (CCed here), Director of the Office of Health Equity, as well. I'm not sure of his team's capacity during the COVID-19 response, but he may be able to identify someone from OHE to attend, if not himself.

Thanks,

Hi Alex,

Region 8's Superfund division director, Betsy Smidinger, is working on pulling together the relevant folks from the CDPHE and EPA Superfund and EJ programs to meet and discuss the path forward regarding community engagement related to the VB-I70 superfund site. Attendees from EPA, in addition to EJ, would include Betsy, Aaron Urdiales, Steve Wharten, Jesse Aviles from Superfund and Jennifer Chergo and Chris Wardell from our Community Involvement group. Jen Opila and Tracie White from CDPHE will be invited. Is there anyone from the Department, in addition to you, that should be invited who can speak to the plans for GES community engagement?

Thanks and please let me know if you need any additional background or have any questions regarding this meeting.
